

C3V s.r.l. was founded in 1990 after having experienced the field of children sportswear in the previous decade.

It is located in Andria, in the area of Bari (Italy) where it mainly produces and sells sportswear like track suits, sweatshirts, t-shirts, sweatpants and underwear for:

- Baby (9-24 months);
- Children (3-8 years);
- Teens (s/xl).

The company is provided of a staff that includes about 40 employees working in different departments such as:

- Design;
- Printing;
- Embroidering;
- Industrial cutting;
- Sewing;

and it also boasts important relations with external suppliers and workdepartments that support it when needed. By this way it can increase its regular production flow from **4000 to 8000 pieces per day**, never forgetting to satisfy properly its main goals: **quality and customers needs.**

Thanks to an interesting **QUALITY/IMAGE/ PRICE** relation **C3V product** has been able to earn in this latest period a wide and visible space in some of the most important national department stores like:

- Carrefour Italia;
- Gruppo Rinascente;
- Coop Italia;
- Oviessse;
- Conforama (Salzam).

The company is, furthermore, able to give life periodically to **“short collections”** that reflect the latest trends and desires of the markets: the consciousness that **the product is at the basis of the success** leads to the continuous study and knowledge of the markets so that it is possible to offer to the

customers what they are really looking for in that moment.

C3V can infact translate in short time these informations in new proposals that are addressed to the customers that show a particular attention towards the original and modern offers.

This is a further signal that gives evidence to the imortance that C3V recognizes to all its customers, whose satisfaction remains always and forever the basic aim of the company.
